- Certified Web Professional-Web Developer (ACMEGRADE)

Work Experience

WaverleyIT Solutions
Data Associate / UI UX Designer
Feb, 2025 - Mar, 2025
Data Associate Intern at Waverley IT Solutions, gaining hands-on experience in data workflows. Pursuing UI/UX design training using Figma and Adobe XD. Building skills at the intersection of data and user experience.

- Successfully contributed to data operations and analysis in a real-world, remote tech environment at Waverley IT Solutions.
- Gained hands-on experience with remote workflows, adhering to industry-level data confidentiality and professional conduct
- Simultaneously pursued UI/UX design training, developing interactive prototypes using Figma and Adobe XD.
- Strengthened cross-functional skills by integrating data insights into user-centric design approaches.

Projects

Student Attendence Management System

This project is a solution, designed to track and manage student attendance efficiently. It automates the process of marking, storing, and analyzing attendance records, reducing manual errors and saving time.
Feb, 2023 - Mar, 2023

- Automates student attendance tracking.
- Generates real-time attendance reports.
- Easy teacher dashboard for marking attendance.
